### SmartFAX Anywhere vs. eFax

eFax is a popular electronic fax service that allows customers to send and receive faxes by email as well as some desktop applications. Unfortunately, eFax is not secure and does not allow you to use your standard fax machine. eFax service plans are restricted and expensive offering only a limited amount of faxes to be sent and received with high per page overage charges.

### Why SmartFAX Anywhere is Better

SmartFAX Anywhere is a reliable analog and online fax service that uses 256-bit AES encryption for maximum security. It addresses the major issues of using an eFax service while still providing enhanced machine, online and email based faxing features. Smart-Fax comes with Unlimited Inbound and Outbound Faxing with No Long Distance Charges for a low flat monthly rate.
